SECRET

1. Comment. The troop trains probably carried elements of the 4th Gds Arty Brig which moved from Schwerin to Letzling Heath on four troop trains on 17 July 1955 and returned to their home station.
The present report indicates that the troop trains also carried tank details probably of the 74th Tk SP Regt of the 94th Gds Mtz Rifle Div. which had also held firing practices at Letzling Heath. This assumption is confirmed by observations which indicated that the quarters of the regiment in Schwerin were not fully occupied on 26 July 1955. 25X1
2. Comment. The receiving station indicates that the troop train carried elements of the 3d Gds AT Arty Brig. According to previous observations, however, the equipment of the brigade includes medium and heavy AT guns rather than 152-mm gun howitzers. 25X1
3. Comment. Tank shipments to Altengrabow were also observed in 1954. The tanks were possibly employed for special tasks in connection with artillery firing practices. The tanks have not been identified. It is possible, however, that they belong to the 18th Mecz Div. which is stationed in the southern sector of Letzling Heath. 25X1
4. Comment. AAA shipments have been repeatedly dispatched from the Halberstadt railroad station. According to the scanty information available, however, no other units were observed in Halberstadt except for the 63d Gds Mecz Regt of the 19th Gds Mecz Div. Since the 2503d Gds AAA Regt of the division has been located neither in Hillersleben nor in Magdeburg, it is possible, that the regiment transferred to Halberstadt. Further confirmation is needed. The troop train of the present report probably went to Wustrow. 25X1
5. Comment. Stendal was probably used as redispersing station. The troop train possibly carried a tank detail of the 7th Gds Tk Div. to the Hillersleben - Salchau firing range at Letzling Heath. 25X1
6. Comment. The troop trains carried AAA units from the area of the First Gds Mecz Army to Wustrow. 25X1
7. Comment. The weapons observed and the receiving station indicate that the troop trains carried elements of the 3d Gds AT Arty Brig back to Rostock. the troop train went from Rostock to Altengrabow on 20 July 1955. 25X1
25X1
8. Comment. The troop train probably carried elements of the 17th Gds Tk SP Regt of the 57th Gds Mtz Rifle Div. which returned from firing practice in the southern sector of Letzling Heath. According to observations from Weissenfels, 11 tanks of the regiment were entrained on 21 July. They returned, however, as early as on 24 July 1955. 25X1
25X1
9. Comment. The report indicates that the troop trains carried elements of the 304th Arty Brig which probably went to firing practice in the northern sector of Letzling Heath. 25X1
